

Team85 Swim Lesson Policies

Team85 Fitness & Wellness welcomes you and your child to our aquatics program. We hope your child has a great experience with us!

Upon arrival, please check in at the front desk before proceeding to the pool deck. If you are a member of the club, you still need to check in with the aquatics staff at the front desk for your child's swim class.

All swimmers must rinse off before entering the water for class.

If your child is not a member of the club, he or she is not allowed in the water before or after class. Swimmers must exit the pool after the class has ended.

Spectators are to sit in the sitting area while classes are in session. No one is allowed to stand near the edge of the pool or move chairs from their current location. Members can go workout while your child is in class, but you must be back on the pool deck 5 minutes before the class ends.

Parents must remain in the building while your child is attending classes at Team85 Fitness & Wellness. Please do not drop your child and leave. If we see this your child will be removed from the class with no refund given.

Once the session has started there are no refunds.

There are no make-up classes for missed classes. If Team85 cancels classes due to the weather or any other issue beyond our control the class will be made up.

Children 4 & up cannot enter the opposite sex locker rooms. We have two bathrooms on the pool deck and a family changing room two doors down from the women's locker room. Please be courteous of others using the changing areas.

Thank you
